Assigning Details

Keep Availability updated!

When you decline a meet, mark unavailable in GymJas

When meet assigned, create a contract

Assigning done by calculating the total number of assignments available and dividing by the number of judges available. After that the additional assignments are awarded in order of rating (Brevet, National, L10, L9, L7/8)

- For example: if there are 200 assignments for fall season and we have 40 judges, each judge should receive 5 assignments (based on availability of judge)

If you do not want to judge a 1-judge panel, put info in notes

Availability

Keep Availability updated!

Winter availability due October 1st
